

NIET Journal of Discourse, Technology, and Society (NJDTS)

Publication Frequency

NJDTS is published **biannually**, with issues released in **July** and **December** each year. Each issue is built around a **focused theme**.

Manuscripts received after the submission deadline for a given issue, or that fall outside its designated theme, will **not** be automatically carried forward to the next issue. Authors must resubmit for a future issue whose theme and timeline align with their manuscript.
